In a recent speech, Clinton repeatedly made fun of the militias and patriots saying *How dare you call yourselves patriots and heroes*. In another statement he said, *you compare yourself to colonial militias you are wrong*.

Where was Clinton when they taught US History? Oh, that's right, he was in Oxford, England and Moscow, Russia, while the conspirators were killing 58,000 American soldiers in Vietnam. Clinton wasn't merely protesting the war like many concerned Americans were doing. He was promoting Communism and world government, just as he is today. There is a big difference.

Clinton today is not standing for the Constitution and citizen's rights like our founding fathers did; he is trying to take those rights away.

There is a big difference between President Clinton and President Jefferson. Jefferson did not have a powerful liberal media at his disposal. If Clinton doesn't like patriot groups that do not agree with his socialist agenda, all he has to do is call a press conference and label American patriots as terrorists and hate groups. The media enthusiastically reports those lies without rebuttal.

If Clinton doesn't like the comparison between the minutemen of 1776 and the citizen militias of today, all he has to do is rewrite

history with his own socialist interpretation. It could be called *Clinton's History of the American Revolution, 101*.

If Clinton wants to turn everything around, let's make all his buddies the good guys and see how it would appear in the history books:
Patrick Henry: According to Clinton's History 101, Patrick did not say *give me liberty or give me death*. He actually said, *Give me a one-world government and food stamps, or I will give death to those who want liberty*.
Paul Revere: Paul did not jump on his horse to warn patriots about the British invasion. According to Clinton History 101 Paul Revere said, *the Christian militias are coming! The Christian militias are coming! Call the Russians for help! We need to purge America for the One-world government!*

John Paul Jones: He really did not say, *Don't give up the ship, I have not yet begun to fight*. According to Clinton History 101 John actually said *Don't fight for liberty! Give up the ship, the Constitution and all your freedoms because we have now begun to live in the New World Order*.

Thomas Jefferson: Thomas really did not say that the second Amendment was to protect us from tyranny. According to Clinton History 101, what he really said was, *The second Amendment was created to arm soldiers to protect tyrant governments*.

According to Clinton History 101, the IRS, ATF, and FBI are the real heroes and those farmers, blacksmiths and fishermen were nothing more than hateful terrorists that should not have the right to talk about such things as *liberty and citizen's rights*

Yes, according to Clinton History 101 the socialist federal government won the revolution against those evil Christian patriots. Now we have democracy and everyone is happy and holding hands with the dedicated communists

- who just happen to also want a one-world government!

How convenient. People might ask themselves

if those socialist planners are actually smart enough to merge democracy with communism.

Are They? Yes, they are that devious. That is exactly what is happening in America today. Clinton has been exposed for what he is, and that is why he is verbally attacking true patriots with hate filled rhetoric and false accusations.

The truth is, the American patriot has not changed. American patriots are not terrorists, and are not aggressively changing the American system.

Our founding fathers put in writing what liberty and freedom are all about. We have the documents, we are not trying to amend or replace them. It is the conspirators for a one-world government that are aggressively dismantling our present system and trying to force us into one-world government. The politicians who are members of CFR and the Trilateral Commission are the ones who are offensively attacking our American culture. American patriots are standing for the Constitution.

To accomplish their agenda of takeover, the conspirators will utilize any government agency or branch of the military that is brainwashed enough to follow un-constitutional orders. They will continue to create fear in the

nation and make true patriots look like the enemy.

But, no matter how many disasters are exploited and blamed on the militias, the patriots will continue to stand. Patriots will not surrender this nation or the Bill of Rights to another government.

Our founding fathers gave us a nation dedicated to freedom and we will not abandon our responsibilities as defenders of liberty. There will never be a valid reason to give up our private firearms.

We have it in writing in the Constitution and we are standing for what is right. As our first Commander-in-Chief, George Washington did, we appeal to Heaven for our defense.

Feral Terror?

For those who are going to depend on JJ Johnson for trial updates (Bob Starr trial), you need to forward me your address so that I can do updating. I am knee-deep in alligators myself, and might well be in prison myself before Starr goes to trial.

Ladies and gentlemen, these are indeed the times that try our souls. Let us not be summer soldiers and sunshine patriots in the cold and turbulent weather coming our way.

Kemp's Hemp, the Macon Three and the canning of Nancy Lord are the beginnings of feral federal terror. Pray that God's will included a happy conclusion for those accused and the others in Arizona and Washington State.

In Liberty, Mike Kemp.
